Lower MacKay	Chum	-	4	Oct 23, 30, Nov 6, Nov 20
Lower MacKay	Coho	1	-	Oct 23, 30, Nov 6, Nov 20

#### Comments:

Brian: This was a very challenging year for doing surveys and I am sure that many fish came through that we never seen because of weather conditions.

Tara: We weren't able to do surveys as regularly as in years past, as a result of the intense rain events and very flashy conditions that occurred several times in the fall. There were also several blockages along MacKay as a result of these events that were not cleared for several weeks, so they could have impacted fish passage as well.
